**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

This Office Action is in response to the application filed on February 2, 2004, the preliminary amendment filed on August 8, 2005 adding claims 15-20, and the preliminary amendment filed on November 11, 2005 canceling claims 1-20 and adding claims 21-24.

### ***Information Disclosure Statement***

U.S. Patent number "D32,771" in the Information Disclosure Statement is a false number. The correct U.S. Pat. No. is D321,771. In order to expedite the prosecution of this case the examiner has attached the correct Patent number on the PTO 892 form.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 21 is rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential structural cooperative relationships of elements, such omission amounting to a gap between the necessary structural connections. See MPEP § 2172.01. The omitted structural cooperative relationships are: "the divider being separate from the wire frame" in line 5, it is unclear what the applicant regards as "being separate". It is recommended that the applicant change the word "separate" to

--separable-- in order to clarify the structural relationship of the divider. In order to expedite the prosecution of this case, the claim has been construed as such.

Appropriate correction is required.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 21-24 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Pat. No. 6,109,455 (Schroeder '455).

Schroeder '455 discloses a dish rack assembly, comprising: a wire frame (GK) that defined a plurality of sides and a base, with the sides and the base defining an interior space (column 4, lines 41-45); and a divider section (TR) positioned in the interior space of the base (Figure 6), the divider section being separable (column 3, lines 16-18) from the wire frame, and having a plurality of divider walls(11). Additionally, Schroeder '455 includes at least two accessories attached to the sides of the wire frame (R, GH, BK), one of which being a drinking vessel holder (GH, column 3, lines 35-37; the device of Schroeder '455 is fully capable of performing the function as set forth in claims 21-24, see Figures 1-9).
